EDUCATION

Bhabha Engineering Research Institute	**July 2020 – 2024**
B.Tech in Electrical & Electronics Engineering	*Bhopal, Madhya Pradesh*
Masai School, Bengaluru	**Oct 2022 – Aug 2023**
Full Stack Web Development	*Online*
Jamia Millia Islamia, New Delhi	**Jul 2017 – Sep 2020**
Diploma in Electrical Engineering	*Delhi*

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL
Technologies/Frameworks: HTML5, CSS3, NodeJS, Express, NestJS, MongoDB, React, Tailwind CSS, Redux Toolkit, Docker, Prompt Engineering, Generative AI
Developer Tools: VS Code, Codepen, Replit, Canva

EXPERIENCE

DigiCraft   **Sep 2024 – Apr 2025**
Software Development Engineer Intern   *Hybrid— Delhi*

– Worked on ONDC buyer app; explored seller-side integration using ONDC protocol.
– Implemented quick search functionality for products by name, location, and category using Elasticsearch.
– Built shopping cart and order processing system using NestJS and MongoDB.

RedCarpet ↗   **Jan 2024 – Mar 2024**
NodeJS Backend Developer Intern   *Remote — Gurugram, Haryana*

– Utilized OpenAI's GPT-4 model for generative tasks.
– Crafted a dynamic dashboard using PostgreSQL, React, Express, and Node.js.
– Developed the edgechain and edgeCloud library at arakoo.ai.

PROJECTS

Vegy-Food — ↗ — ⌨   **Jul 2024 – Aug 2024**

Tech Stack Used: Node.js, Express.js, MongoDB, JWT, Bcrypt, React, Tailwind CSS, Redux Toolkit

– Built auth with Google OAuth, OTP-based password, and Nodemailer.
– Developed a cart and order management system with real-time email alerts.
– Built an admin dashboard to manage orders and update their statuses such as Delivered, Confirmed, etc.
– Developed RESTful APIs for searching restaurants and their menus.

MyFile-Drive — ↗ — ⌨   **Jan 2024**

Tech Stack Used: Node.js, Express.js, bcrypt, JWT, AWS (S3, EC2), MongoDB, React

– Implemented secure user authentication and access control with bcrypt and JWT.
– Enabled users to securely upload files to AWS S3 and managed access control.
– Built with Node.js, Express.js, React, and MongoDB, deployed on Netlify and AWS EC2.

CERTIFICATIONS

Full Stack Web Development - Masai School ↗	**Oct 2022 – Sep 2023**
Prompt Engineering - Masai School ↗	**Sep 2023 – Nov 2023**
